

Nubians have lived in what is now southern Egypt and northern Sudan for 1000's of years. Their culture is entwined with the river, the desert and the farm land near the water. Taking time to sail, walk and travel with a few Nubians, will enable you to appreciate their homes, families, hospitality and their boats, not to mention some of their history and culture. Our local Nubian friends love introducing you to their culture and there is no better way than sailing on the boats, walking through their farms, entering into their uniquely designed homes and savouring their tasty home made meals, ending with a few songs. This will leave you with a colourful memory of their life near the Nile.

Experience the adventure : swim in the Nile, sail on a felucca (traditional Nile sail boat), ride their camels in the desert alongside the Nile, join in with the lilting singing and dancing, share a meal and/or sleep in a Nubian home and even try speaking some of the language.

5 days Aswan (Nubians)
